- Device Programming Feeders
- Custom & Special Feeders
- Complete Feeder Overview

Feeder Product Folder

Issue Date: October 2004

“The Best Feeders belong to the Best Machines”

Feeding is an essential backbone of the pick and placement process. With Assembléon providing not only the best in class feeders, but also finding that packaging and feeding method that fits your process the best, you can count on a smooth and care-free operating environment guaranteeing the highest machine uptime and lowest cost of operation. To extend the pick and placement machine's flexibility to the max, a feeding solution is available for virtually any packaging method. Feeding solutions can be found for tape and reel, bulk cassette, advanced packaging, SMD sticks, Oddform, Bare Die Handling, Wafer Handling, Labels, Trays and many more.

Reel holders

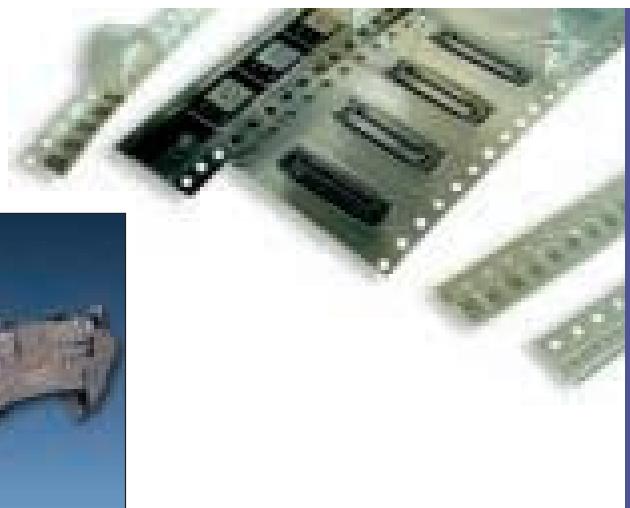

User Benefits

- Reel holders remain attached to feeders allowing single handed operation
- Rigid reel holder designs supporting heavy reels
- Expands industry standards 7" and 13" up to 22" for support of larger and heavy components

Reelholder	Reel Size	Reel holder Type	Reel Weights	Reel width Support
PA2653/05	15" Reel holder bin ITF2 8mm, 5pcs	7" - 15"	Reel-bin	Standard 14.4 mm
PA2653/15	15" Reel holder bin ITF2 12mm, 4pcs	7" - 15"	Reel-bin	Standard 18.4 mm
PA2653/25	15" Reel holder bin ITF2 16mm, 4pcs	7" - 15"	Reel-bin	Light 22.4 mm
PA2653/35	15" Reel holder bin ITF2 24mm, 3pcs	7" - 15"	Reel-bin	Light 30.4 mm
PA2653/45	15" Reel holder bin ITF2 32mm, 2pcs	7" - 15"	Reel-bin	Light 39.4 mm
PA2653/55	15" Reel holder bin ITF2 44mm, 2pcs	7" - 15"	Reel-bin	Light 50.4 mm
PA2653/65	15" Reel holder bin ITF2 56mm, 1pc	7" - 15"	Reel-bin	Light 62.4 mm
9466 920 10271	15" Wide Reel holder ITF2 8mm, Splice-able	7" - 15"	Reel-bin	Heavy 14.9 mm
9466 920 10281	15" Wide Reel holder ITF2 12mm, Splice-able	7" - 15"	Reel-bin	Heavy 18.9 mm
9466 920 10291	15" Wide Reel holder ITF2 16mm, Splice-able	7" - 15"	Reel-bin	Heavy 22.9 mm
9466 920 10301	15" Wide Reel holder ITF2 24mm, Splice-able	7" - 15"	Reel-bin	Heavy 30.9 mm
9466 920 10311	15" Wide Reel holder ITF2 32mm, Splice-able	7" - 15"	Reel-bin	Heavy 39.9 mm
9466 920 10321	15" Wide Reel holder ITF2 44mm, Splice-able	7" - 15"	Reel-bin	Heavy 50.9 mm
9466 920 10331	15" Wide Reel holder ITF2 56mm, Splice-able	7" - 15"	Reel-bin	Heavy 62.9 mm
9466 918 14891	22" Reel holder ITF2 16mm	19" - 22"	Center Pen	Heavy 23.5 mm
9466 918 09611	22" Reel holder ITF2 24mm	19" - 22"	Center Pen	Heavy 32.5 mm
9466 918 09621	22" Reel holder ITF2 32mm	19" - 22"	Center Pen	Heavy 40.5 mm
9466 918 09631	22" Reel holder ITF2 44mm	19" - 22"	Center Pen	Heavy 52.5 mm
9466 918 09641	22" Reel holder ITF2 56mm	19" - 22"	Center Pen	Heavy 65.5 mm

Note: Reels PA2653/xx have no feeder neighborhood restrictions and allow the same density of feeders that are equipped with the standard 13" reelholders. Reels 9466 920 xxxx and 9466 918 xxxx have neighborhood restrictions.

Tape Feeders

User Benefits

- Pneumatic Indexing
- Easy pitch changes
- Standard reel support up to 15 inch
- Single handed operation facilitates fast setup
- Alternate feeder pick-up for maximum performance
- Supports splicing for uninterrupted production
- Support from 72mm tapes to components down to 0201
- Supports tapes based on the IEC 60286-3 specifications
- Feeder Identification (CLi Feeders) eliminate incorrect feeder setup

To use any Strip Component Feeder or Carrier Tape Tray, a fixed tray (with or without pallet) is required.

Carrier Tape Trays

Carrier Tape Trays

User Benefits

- Low cost, flexible solution for prototyping, evaluation, small batch and low volume production
- Steady positioning of small pieces of carrier tape
- Support from 8mm to 12mm tapes on Strip Component Feeder and up to 200mm tapes on the Carrier Tape Tray
- Support of multiple tapes per lane

Feeder	Lanes	Tape Width Support	Max Tape Length	Max Pocket Depths	Maximum tapes per lane
9466 920 10501	8	6 x 8mm	318 mm	3.5 mm	Multiple (1 up to 3 common)
4035 118 00090		2 x 12mm			
9466 920 10591	Variable, default = 4 *	8mm through 200mm	324mm	10mm	1 optional: 2
4035 114 00933					
4035 114 00934					

Notes: * Lanes can be extended by adding additional Tape Guides (9466 920 10601 or 4035 114 00932)

Feeder Trolleys / Interfaces

User Benefits

- Facilitates fast production run change-over
- Allows off-line setup and verification
- Self aligning mechanism provides optimal pick reliability
- Preserve feeder investments by supporting alternate feeder interfaces or adaptive feeder trolleys that allow third party feeders to fit onto Assembléon machines

Stick Feeders

Stick Feeders

User Benefits

- Standard top plate support for most used stick component types
- Easy connect top plates
- Custom top plate support for long term use in operation of non-standard component ranges or component mix
- Generic top plate support for quick use in operation of non-standard component ranges or component mix
- Occupies only 5 feeder slots

				■		9466 920 10431	First Aid Kit Jedec Tray Stacker 2 GEM

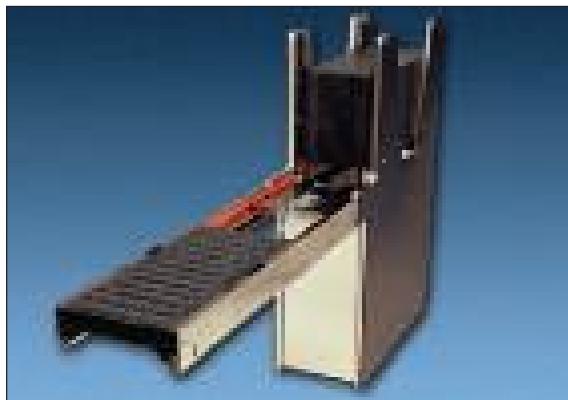

Notes:

When using the Jedec Tray stackers on the GEM or GEM-Xi equipment, it requires the IO Auxiliary Kit 9466 920 06181 and Mechanical Installation Kit 9466 920 06191 to be installed

A single Jedec Tray Stacker installed on an ACM requires the upper-guide 9466 920 09661 to be installed.

Jedec Tray Stacker

User Benefits

- Dramatically increase throughput by automatically delivering trays non-stop
- Low cost of ownership
- Efficient operation due to low interaction with operators.
- No pallet setup time or pallet teaching
- Enhances productivity in applications up to 4 different tray components (1 feeder per component type)

Item	9466 920 10371	9466 920 10381 / 4035 114 00991

Waffle Pack Feeders

User Benefits

- Support of 2"x2" and 4"x4" waffle packs
- Easy load and unload of waffle packs
- Operation efficient due to low operator interaction
- Automatic waffle pack loading and eject
- Waffles loaded as a stack rather than on pallets

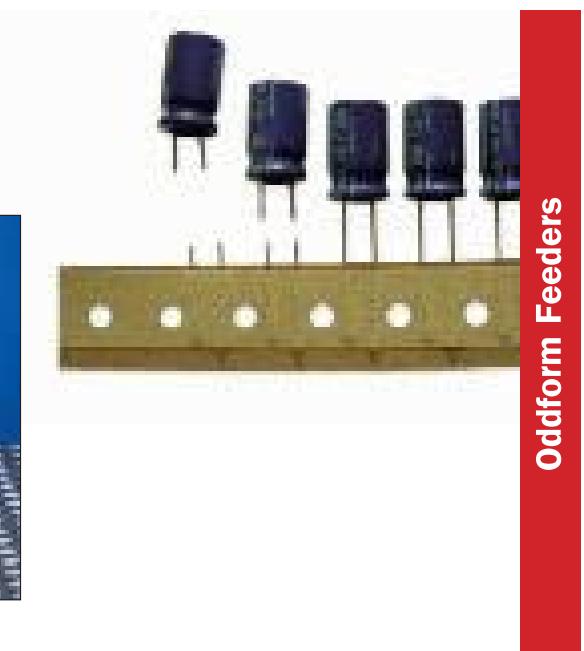

Item	Specification 2" x 2"	Specification 4" x 4"
Maximum number of waffle packs	50 (45 recommended)	20
Minimum Die size	1 mm (shortest edge length)	1.27 mm (shortest edge length)
Maximum Die size	Limited by system capabilities	Limited by System Capabilities
Slot occupation	6 (ACM/AQ-1), 7 (GEM)	10 (ACM/AQ-1), 11 (GEM)
Waffle Index Time	< 3 sec	< 4 sec

	Order Number	Description
ACM/AQ-1 	DDF Assembléon	Hover-Davis Direct Die Feeder (DDF)

Notes:

*The Hover-Davis Direct Die Feeder is available via the Hover-Davis Sales offices only. Contact addresses can be obtained at:
www.hoverdavis.com*

To fit the Direct Die Feeder on the ACM/AQ-1 and D-9, the Universal Base Plate 9466 920 09211 is required

Radial Component Feeders

User Benefits

- Easy to use and rugged construction
- Support for 12.7mm and 15mm Radial Tapes
- Support for Reels and AmmoPacks
- Slanted cut action possible for enhanced component insertion

Item	Specification
Tape types	Radial, according IEC 60286-2
Tape height	Max. 36mm
Physical Component dimensions	Mix. Diameter: 12.5mm Max. Comp. Height 22mm
Standard grid	2.5mm to 24.5mm
Lead Diameter	0.4 – 0.8mm
Index speed	Max 1,2sec
Component storage	Reel size diameter max 400mm Ammopack
Cut	Straight, 30° angle cut
