## A CUTTING-EDGE SWITCH

The perfect combination between technology and design.

The **glassTOUCH light+SENSE™** series are attractive, modern, and state of the art switches that blend into any ambience. Standing out by their simplicity and providing a contemporary style that merges with your decoration, you will never find such a versatile product!

## A NEW CONCEPT

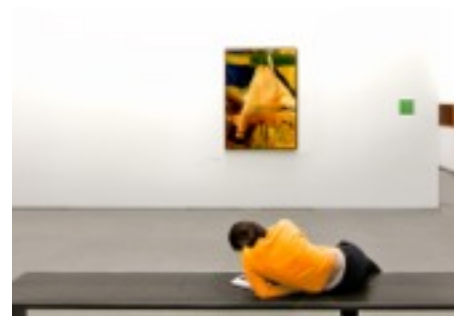

A fusion of innovation, functionality, design and quality that will surprise you by its simplicity: a simple glass panel.

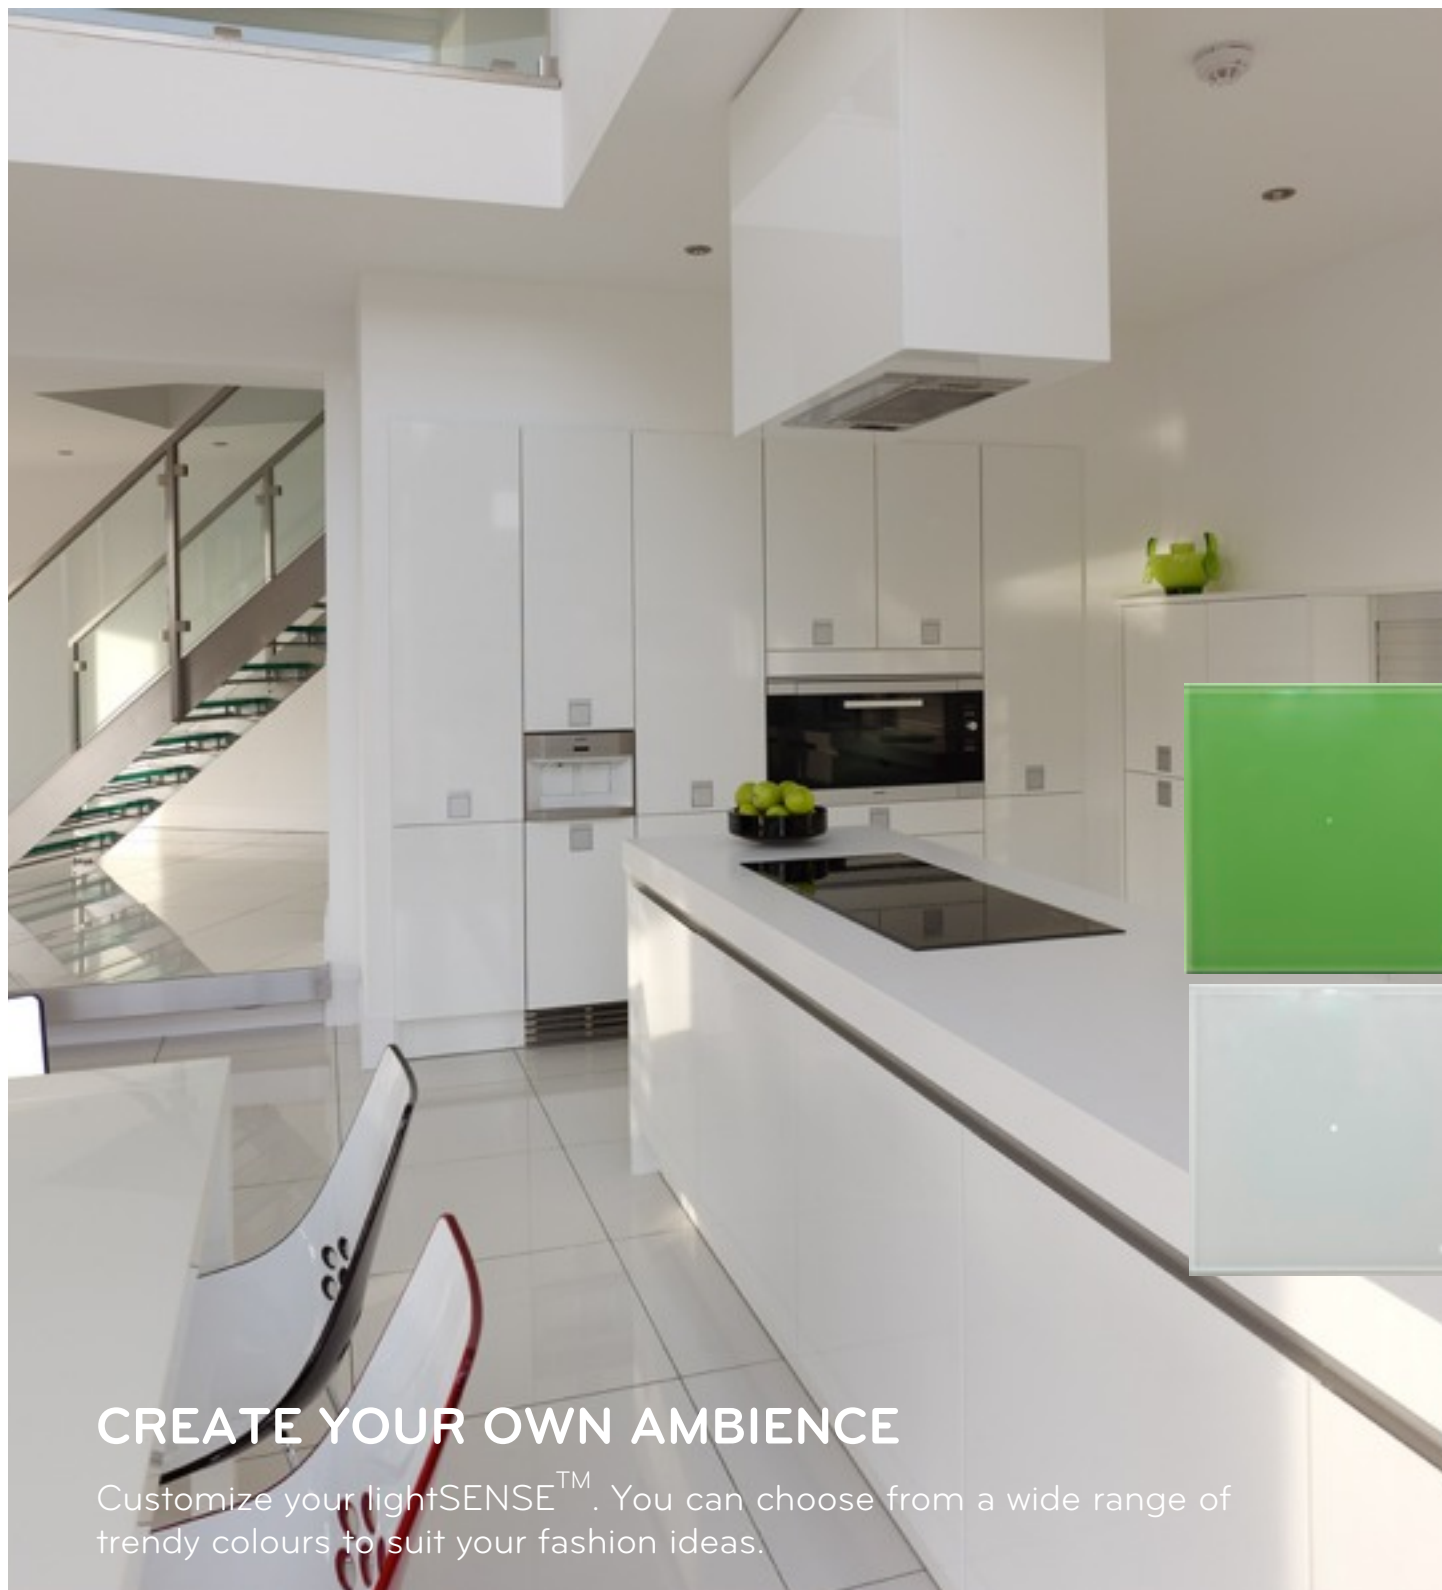

A glass panel switches on and off the lights of your spaces.

**Straight**, simple and minimalist lines.

**Surface Finishing:** glass that lasts forever.

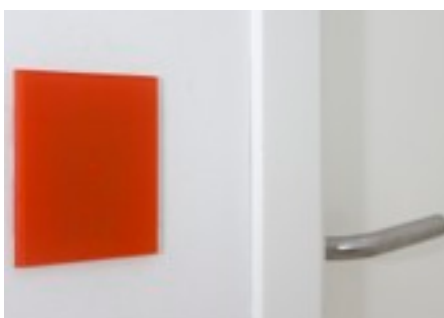

Combine it with your deco or express yourself creatively.

## CREATE YOUR OWN AMBIENCE

Customize your lightSENSE™. You can choose from a wide range of trendy colours to suit your fashion ideas.

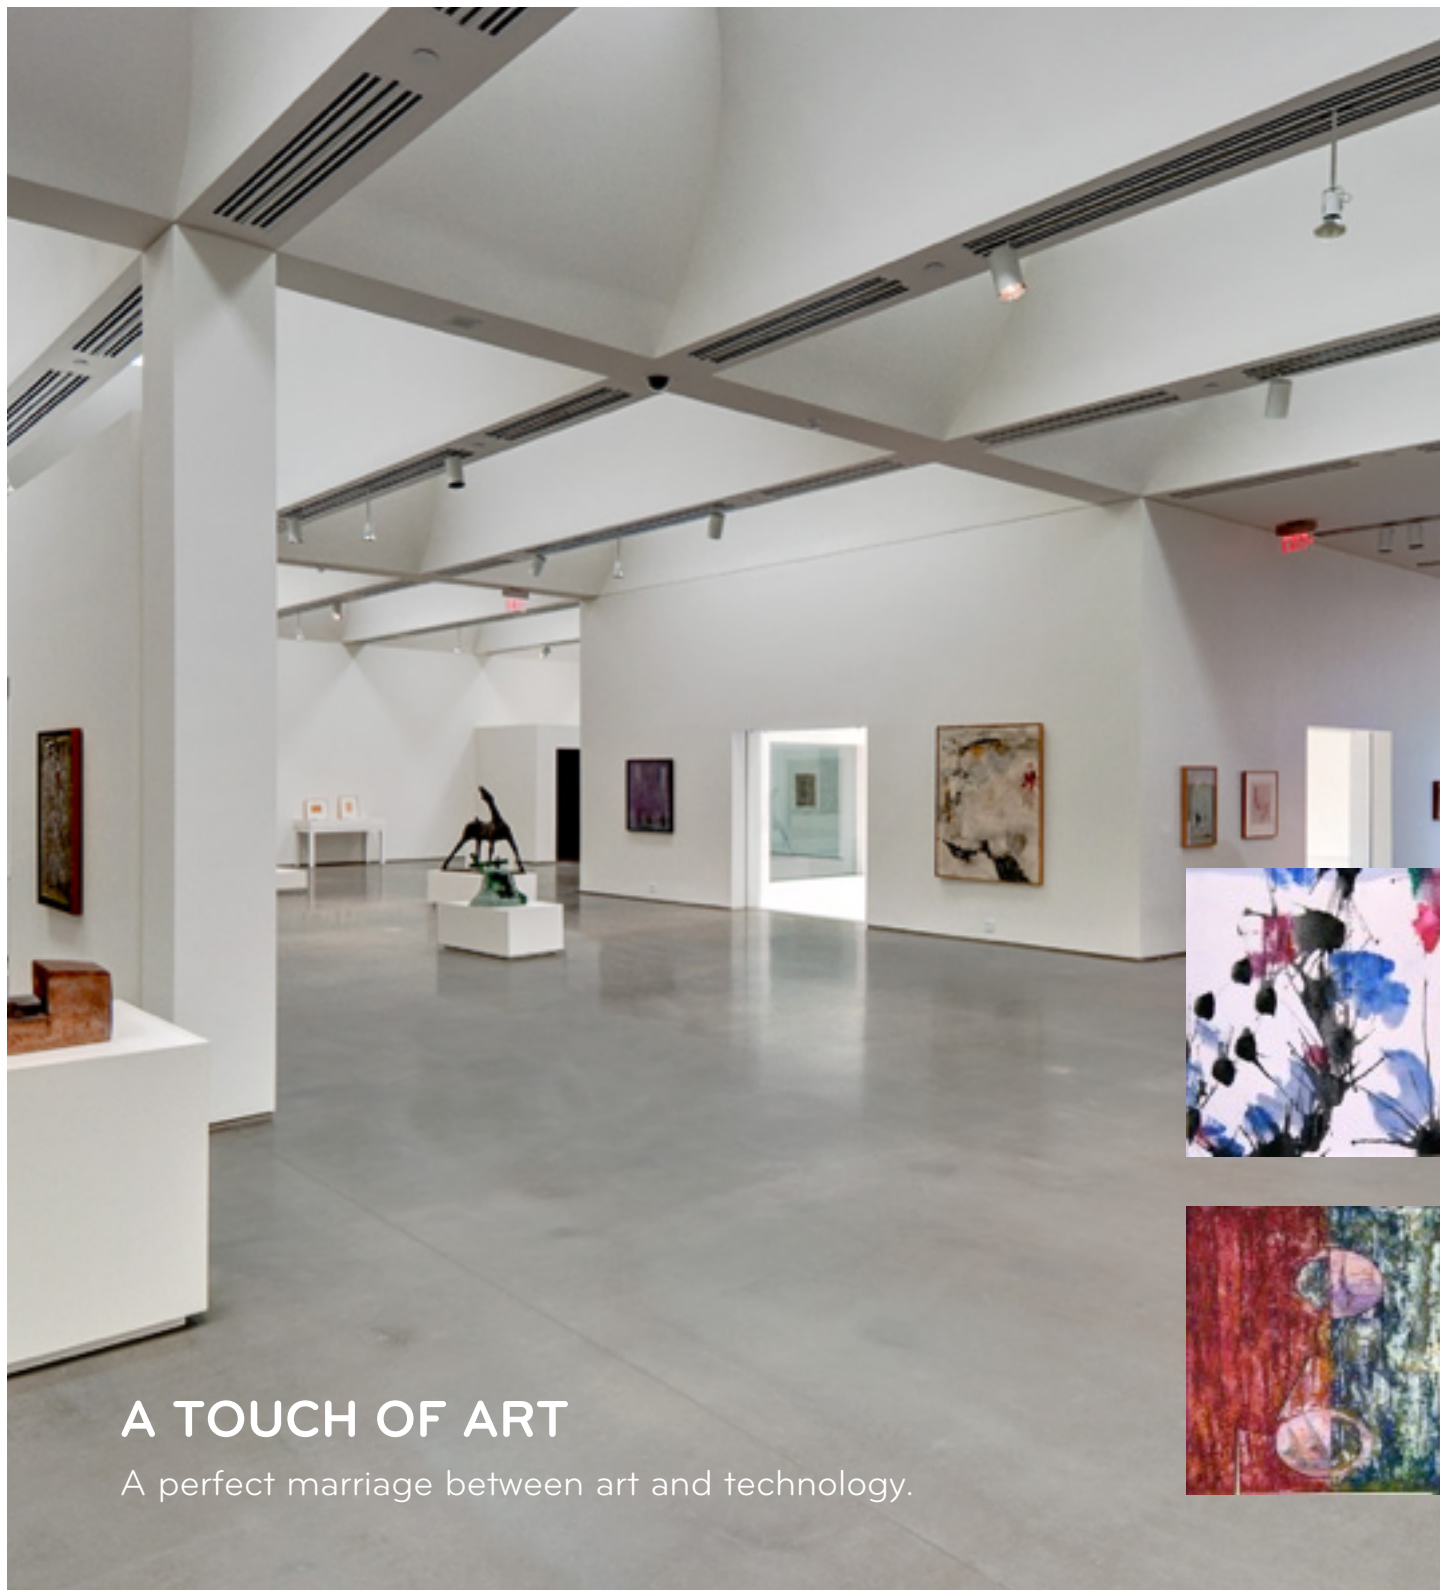

Let lightSENSE™ match your inspiration and creativity.

With our exclusive glassCLIP™ system (patent pending) you can change style and deco as many times as you want.

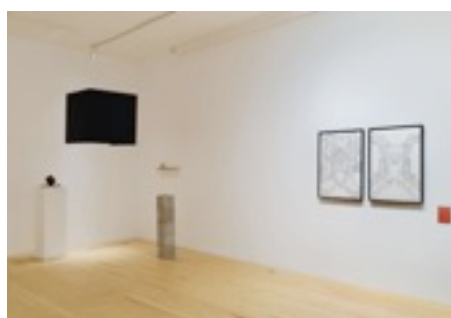

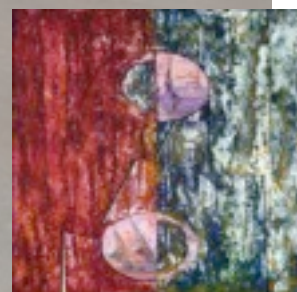

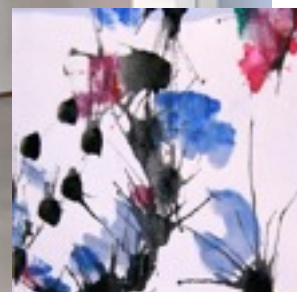

And if you are looking for something special... meet the artists' exclusive collection.

## A TOUCH OF ART

A perfect marriage between art and technology.

We think of Art as part of our products. Therefore, we have asked three superb artists to assume the challenge of expressing their creativity in a new support format: the glass panel of our switches.

## ecoTOUCH

Environment friendly devices.

**Ecological:**  
because we care;  
the electrical  
consumption of  
**lightSENSE™** is  
minute and  
almost all of its  
components are  
recyclable.

**Clean:** easy to  
keep in optimum  
condition. No  
need of special  
cleaning  
products, just a  
little bit of water,  
and...

## STANDARD COLOURS

Our basic colours:

- Orange
- Fuchsia
- Green
- Blue
- White
- Yellow

## CUSTOM COLOURS

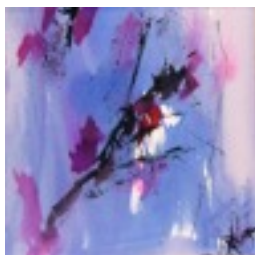

A colour for every ambience. We would like our customers to have a wide range of colours to create and customize their own spaces.

Add a touch of colour or let your **lightSENSE™** be part of your deco.

You can always order replacement panels to create new sensations, change your deco or simply, because you are in the mood.

Thanks to the new **glassCLIP™** system (patent pending) you can replace any glass in a wink of an eye.

Discover the possibilities of **lightSENSE™**.
