

**Comparative table for clone ttester**

Clone model	CPU, form factor, clock	Display, controller, resolution	5V reg, ref.2.5V, power control	Test option (preinstalled firmware)	Protection will measure ports	Firmware, opportunity update	Power supply	Possible price
<b>LCR-T4</b> 	ATMega328, TQFP, 8Mhz	LCD 2.6" SPI, ST7565, 128x64	78L05, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	No	Chinese firmware (2.07-2.68), possible update to firmware 1.13k or 1.41m	+9V	≥6-10\$
<b>Fish-8840</b> 	ATMega328, TQFP, 8Mhz	LCD 2.6" SPI, ST7565, 128x64	78L05, No, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	No	Chinese firmware 2.1, possible update to firmware 1.13k or 1.41m	+9V	≥15-20\$
<b>M328Kit+TFT(AY-AT)</b> 	ATMega328, DIP, 8Mhz	LCD TFT 1.8" SPI, ST7735, 160x128	7550, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors voltmeter, frequency generator, frequency meter, encoder	Yes, SRV05-4 diode assembly, suppressor (TVS) 6V8A	Firmware 1.12k mod., possible update to firmware 1.13k or 1.41m	+9V, connector ext. 9-12V	≥10-15\$

<b>GM328A</b>		ATMega328, DIP, 8Mhz	LCD TFT 1.8" SPI, ST7735, 160x128	7550, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors voltmeter, frequency generator, frequency meter, encoder	Yes, SRV05-4 diode assembly, suppressor (TVS) 6V8A	Firmware 1.12k mod., possible update to firmware 1.13k or 1.41m	+9V, connector ext. 9-12V	≥10-15\$
<b>M328Kit</b>		ATMega328, DIP, 8Mhz	LCD 2.4" SPI, ST7565, 128x64	7550, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors voltmeter, frequency generator, frequency meter, encoder	No	Firmware 1.12k mod.* , possible update to firmware 1.13k or 1.41m	+9V	≥10-15\$
<b>GM328A+</b>		ATMega328, DIP, 8Mhz	LCD 2.6" SPI , ST7565, 128x64	7550, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	Yes, SRV05-4 diode assembly, suppressor (TVS) 6V8A	Firmware 1.11k mod.* , possible update to firmware 1.13k or 1.41m	+9V	≥10-15\$
<b>MG328</b>		ATMega328, TQFP, 8Mhz	LCD 2.4" SPI, ST7565, 128x64	7150, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	No	Firmware 1.11k mod. , possible update to firmware 1.13k or 1.41m	+3.7V, +5V(USB)	≥10-15\$

<b>WEI M8-1</b> 	ATMega328, TQFP, 8Mhz	LCD 2.6" SPI, ST7565, 128x64	7150, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	No	Firmware 1.11k mod., possible update to firmware 1.13k or 1.41m	+3.7V, +5V(USB)	≥10-15\$
<b>BSIDE ESR02(DTU-1701B)</b> 	ATMega328, TQFP, 8Mhz	LCD 2.6" SPI , ST7565, 128x64	7150, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	No	Firmware 1.11k mod., possible update to firmware 1.13k or 1.41m	+9V, connector ext. 9-12V	≥25-30\$
<b>Fish-8840(BOX)</b> 	ATMega328, TQFP, 8Mhz	LCD 2.6" SPI, ST7565, 128x64	78L05, No, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	No	Chinese firmware 2.1, possible update to firmware 1.13k or 1.41m	+9V	≥10-15\$
<b>Fish-8840TFT</b> 	ATMega328, TQFP, 8Mhz	LCD TFT 1.8" SPI, ST7735S, 160x128	78L05, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	No	Chinese firmware 2.4*, possible update to firmware 1.13k or 1.41m	+9V	≥15-20\$

<b>LCR-TC1</b> 	ATMega324, TQFP, possible ATMega644, 16Mhz	LCD TFT 1.8" SPI, ST7735S, 160x128	78L05, TL431, port PA5, STC15L104, possible STC15F104, STC15W104	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<35V), voltmeter, resistors, capacitors, chokes, inductors, IR receiver	Yes, SRV05-4 diode assembly, suppressor (TVS) 6V8A	Chinese firmware 2.12, possible update to firmware 1.13k or 1.41m**	+3.7V, USB charging	≥15-20\$
<b>LCR-T7</b> 	ATMega324, (TQFP), possible ATMega644, 16Mhz	LCD TFT 1.8" SPI, ST7735S, 160x128	78L05, TL431, port PA5, STC15L104, possible STC15F104, STC15W104	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<35V), voltmeter, resistors, capacitors, chokes, inductors, IR receiver	Yes, SRV05-4 diode assembly, suppressor (TVS) 6V8A	Chinese firmware 2.12*, possible update to firmware 1.13k or 1.41m**	+3.7V, USB charging	≥15-20\$
<b>MK-328</b> 	ATMega328, TQFP, 8Mhz	LCD 2.6" SPI , ST7565, 128x64	1117, TL431, divider port PC5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<5V), resistors, capacitors, chokes, inductors	Yes, SRV05-4 diode assembly, suppressor (TVS) 6V8A	Firmware 1.11k mod. , possible update to firmware 1.13k or 1.41m	+9V	≥18-25\$
<b>Hiland M644</b> 	ATMega644, TQFP, 8Mhz	LCD 2.4" SPI, ST7565, 128x64	1117, TL431, divider port PA5	Transistors, diodes, diode assemblies, LEDs, thyristors, triacs, zener diodes (<35V), resistors, capacitors, chokes, inductors, frequency generator, frequency meter, quartz and ceramik resonators, voltmeter, encoder	No	Firmware 1.12k mod.* , possible update to firmware 1.13k or 1.41m	+9V	≥18-25\$

\* Note: the Chinese version is locked to read!

\*\* Note: for a clone with a display connected to a 6-pin J3 connector.
