

**JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION  
SOLICITATION SPE7MX14R0177**

☒ **ORIGINAL**

1. The Defense Logistics Agency, DLA Land and Maritime, is the contracting activity.
2. The action being approved is the acquisition of supplies on other than a full and open competition basis.
3. The supplies required to meet the using activity's needs are described as follows:

NSN	Nomenclature	AMC/ AMSC	ADQ	Est Annual Demand Value (ADV)	Estimated 3 Year Base	Est Total Contract Value including Option Years	Contract Maximum

4. The statutory authority permitting other than full and open competition is:

( X ) 10 U.S.C. 2304(c)(1) - Available from only one or a limited number of sources.

5. Fluke Corporation dba (89536) is currently the only source of Supply.

**JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION  
SOLICITATION SPE7MX14R0177**

The confirmation of the source listed above was completed by the SAPD Product Specialist group during the technical evaluation of this project. Based on the limited data the Government possesses, only the approved sources can meet the Government's minimum needs for these item. If new sources are approved prior to award, the solicitation will be reissued allowing for the new source(s) a chance to compete for this acquisition.

Because only the approved sources possess the complete technical data for the items listed, they are the only sources uniquely qualified to manufacture these items; therefore this acquisition will be solicited with other than full and open competition under the authority of 10 U.S.C 2304(c)(1), as implemented by FAR 6.302.

The use of the authority cited in other than 10. U.S.C. 2304(c)(1) above:

(X) AMC 3. Acquire, for the second or subsequent time, directly from the manufacturer.

The use of the authority cited is based on:

(X) AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application. If one source is approved, AMCs 3, 4, or 5 are valid. If at least two sources are approved or if data is adequate for an alternate source to qualify in accordance with the design control activity's procedures, AMCs 1 or 2 are valid.

(X) AMSC L\*. The annual buy value of this part falls below the screening threshold established by DoD components and field activities. However, this part has been screened for additional known sources, resulting in either confirmation that the initial source exists or that other sources may supply the part. No additional screening was performed to identify the competitive or noncompetitive conditions that would result in assignment of a different AMSC. This code shall not be used when screening parts entering the inventory. This code shall be used only to replace AMSC O for parts under the established screening threshold. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

(X) AMSC Z. This part is a commercial/nondevelopmental/off-the-shelf item. Commercial item descriptions, commercial vendor catalog or price lists or commercial manuals assigned a technical manual number apply. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources are available, AMCs 1 or 2 are valid.

**\*APPLIES TO LTCs** - An Item identified by AMSC A, H, or L has been subjected to limited screening. The Government does not physically have in its possession sufficient, accurate, or

**JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION  
SOLICITATION SPE7MX14R0177**

legible data to purchase these item from other than the identified source. Items identified by AMSC A, H, or L on Long Term Contracts, are subject to annual review for possible assignment of a different or permanent AMSC. DLA Land and Maritime agrees to maintain a continual review of these items to ensure that an annual review at a minimum, in part to determine if new technical data is available to allow for assignment of a more permanent AMSC. Any item determined to be competitively available during the solicitation evaluation phase will be removed from the acquisition requirement. Any item determined after contract award to be competitively available may be deleted from the contract and re-solicited

6. Efforts to ensure that offers are solicited from as many sources as practicable are:

- (X) The acquisition will be synopsisized on or about 04/01/2015.
- (X) Manufacturers of similar products identified in the market research will be solicited.

7. I hereby determine that the anticipated cost to the Government will be fair and reasonable. These items are commercial and available through the commercial market place via GSA and the Internet sales. There is past buy history on these items as well. Therefore, the anticipated cost will be fair and reasonable based the commercial market place and past buy history.

8. Market Research/Efforts to Obtain Competition:

Market Survey [10 U.S.C. 2304(f)(3)(D)]:

A market research began on 2/27/2014 and concluded on 2/10/2015.

Sources Sought was done by the Market Research team. It was posted to FedBizOpps on 4/22/2014, closing on 4/29/2014. Market Research was conducted via a Market Survey and sent to 3 companies: Techni-Tool Inc. (30239), International Television Corp dba LTC (0EFK4) and Fluke Corporation (89536). International Television Corp dba LTC did not respond back. Techni-Tool Inc. and Fluke Corporation responded as follows:

	<b>Techni-Tool, Inc. (30239)</b>	<b>Fluke Corporation (89536)</b>
<b>Manufacturer or Dealer</b>	Dealer/Distributor	Manufacturer
<b>Small or Large Business</b>	Large	Large
<b>Interested in Long Term Contract</b>		
<b>Commercial Item</b>		
<b>Are these items available on the Internet</b>		
<b>Are these items price listed</b>		
<b>Are these items available to the General Public</b>		
<b>Is Inventory Maintained for these items</b>		

**JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION

Maximum Delivery Quantity		
Are there price breaks		
Phase Delivery		
FOB Origin Savings		
EPA vs Percentage Increase		
3 year base w/2 one year options		
EDI		

9. Additional facts supporting other than full and open competition are:

(X) Based upon the technical certification on file in DLA Land and Maritime-VEP technical data is not available and cannot be developed to permit full and open competition. The data presently available reflects the minimum needs of the Government.

10. A listing of sources, if any, indicating an interest in the acquisition are: Techni-Tool Inc. (30239), and Fluke Corporation (89536).

11. In addition to the specific actions being taken by Technical Support personnel to overcome barriers to competition before any subsequent acquisitions or recertification of class determination are made, these item is subject to the following methods of locating additional sources:

(X) The solicitation contains the provision entitled Conditions for Evaluation and Acceptance of Offers for Part Numbered Items

**CONTRACTING OFFICER CERTIFICATION**

I hereby certify that the information contained in this justification is accurate and complete to the best of my knowledge and belief. If not exceeding \$650,000, this signature serves as the approval.
