---

Respected Sir/Madam,

I am enclosing my resume in hopes that your company may assist me in locating a position as a power electronics design engineer. I am very much interested in obtaining this position with your company. As you will see from my resume, currently I am working as Assistant R&D manager with Sonodyne International LTD. I have strong background in the principles and practices of electronic circuitry, circuit design and implementation. I have a industry experience of 5+yr .I believe that my energetic multitasking will be the asset to your company.

I look forward to meet you. I believe that I have qualifications to become an asset to your firm. Thanks for your time and consideration.

Sincerely,  
Ardhendu Sekhar Das
